Reviews Wireless Network Performance Handbook: Third Edition (2008) | Clint Smith, P.E. | Books by Clint Smith | Clint Smith Reviews | Preview by BookLikes. Full Text Available In this article, we provide a case study of the new network creation and optimization processes for the new fiber-to-the-curb deployment that is now being deployed in the Phoenix metro area. We specifically review the work of the Southwest WIRELESS AND TELECOM RESEARCH AND DEVELOPMENT Center (SWWTR&D Center, located at Arizona State University and led by Clint Smith, as it relates to the Phoenix metro area deployment. In particular, we discuss the deployment of the fiber-to-the-curb program, and the changes made to the wireless network design, deployment
